The overseas card 3D-authorization info KOREA

- 3D authorization is the service developed by VISA card, and it is offered through VISA Net by VISA, Master. (The system is based on the Korean(domestic) general-payments-service.)
- The 3D-authorization overseas card is available in Visa and Master, JCB. Other card companies(DINERS, AMEX etc.) are not available.
- The 3D-authorization overseas card(same as the Korean general-payments-service) has to be offered by the card issuer, and the card owner needs to register the security code for the card issuer.

How to use

The service is available after you authorize your ID and the card information on the website of the card issuer

- To use the overseas card 3D-authorization payment, the customer needs to register the personal card information and ID on the authorization window offered by the card issuer.
- In the case of nonvalidated card by the card issuer, the authorization payment cannot be available on the online.

ex) for example, if you have BC-Visa card, you have to take registration steps on the BC-card or Visa card website.
