

JUNIOR GREEN CORPS DESERT WORKCAMP

2016.7.29(Fri) ~ 8.2 (Tue)

**Future Forest - WFUNA
Jr. Green Corps Desert Workcamp**

FUTURE FOREST JR. GREEN CORPS PROGRAM

Established in 2002, the Future Forest's Green Corps program begins its partnership with the World Federation of United Nations Associations (WFUNA) who represents the 109 United Nations Associations around the globe, under Future Forest's visionary goal to "Save the Earth" by creating a sustainable ecosystem

Jr. Green Corps is a Global Citizenship Education Program designed to cultivate eco-leaders of the next generation. It provides a foundation to understand the UN's Sustainable Development Goals (SDGs) and learn to define the issues through the framework. The participatory phase of the program allows for experiences with live projects such as the "Billion Trees in Desert" initiative.

PROGRAM COMPONENTS

Global Citizenship Training (Beijing)

During the three day stay in Beijing, participants will engage in a Model United Nations format mock summit designed to promote global citizenship.

- **Students will be divided into teams to represent various stakeholders related to the region's desertification**
- **Officers from various organizations and institutes will provide special lectures & briefings**
- **Participants will elucidate each stakeholder's stance based on actual field research and analysis**
- **Through discussion and negotiations, students will adopt a resolution of feasible solutions**
- **The adopted resolution will be announced before the officers of various organizations and institutes.**

Volunteer Work (Kubuqi Desert)

Students will visit designated locations in China and conduct hands-on activities to experience and combat desertification. As a part of the “Billion Trees in Desert” program, participants will plant trees in the desert. Each Participant will plant a tree tagged with their names, and receive a login ID for future online monitoring of the desert site and the tree planted. The 3-day schedule at the Future Forest’s Kubuqi desert deforestation site will entail following activities.

- **Desert trekking**
- **The “Billion Trees in the Desert” Program – tree planting.**
- **A global cultural exchange program.**
- **Post-camp online monitoring and feedback activities.**

CERTIFICATE OF PARTICIPATION AND VOLUNTEER HOURS

Certificates of participation at the Future Forest’s Junior Green Corps Desert Workcamp will be issued by WFUNA’s Secretary General, Bonian Golmohammadi and UNCCD Drylands Ambassador / Future Forest Chairman, Byonghyon Kwon.

HOST AND PARTNER ORGANIZATIONS

FUTURE FOREST

Future Forest is a non-government organization devoted to saving the earth through a sustainable soil management project and a number of other projects. In line with this mission, the purpose of the "Jr. Green Corps" program, established by Future Forest, is to educate young students and make our planet a better place for future generations. Future Forest has been planting trees in China since 2001.

WORLD FEDERATION OF UNITED NATIONS ASSOCIATIONS (WFUNA)

The World Federation of United Nations Associations (WFUNA) is a global nonprofit organization working for a stronger and more effective United Nations. Established in 1946, WFUNA represents and coordinates a membership of over 100 national United Nations Associations and aims to facilitate cooperation between UN and global citizens.

BEIJING WUZI UNIVERSITY

Beijing Wuzi University, which translates to "Beijing Logistics and Distribution University", is located at eastern Beijing. With 8,200 students and 650 faculty, it holds various international relationships with countries such as Korea, Japan, New Zealand, Great Britain and Australia. Beijing Wuzi University has been actively participating in Future Forest's fight against desertification since 2013.

CHINA GUANGHUA (SCIENCE & TECHNOLOGY) FOUNDATION

(中国光华科技基金)

Established in 1993, China Guanghua Foundation was rated the number one charity in China by Forbes in 2010. Its mission is to encourage excellence in science and technology and to facilitate the deployment of science and technology in China for the public good. The Foundation has extensive links throughout the technology and government sectors in China, including government institutions, government agencies, and all 31 provincial governments in China, universities, science and business parks, government-owned companies and private sector companies.
